

THE BEGINNER DJ ROADMAP

Four steps from curious to confident — no gear, no music theory, no experience required.

Most beginners don't need more YouTube videos. You need **structure, feedback, and time on real equipment** — and a community that wants you behind the decks. Here's the path.

1

TAKE THE DJ ARCHETYPE QUIZ 2 MINUTES

Every DJ moves a room differently. Ten quick questions reveal what kind of artist lives in you — and how you're built to hold a dance floor.

2

COME TO OPEN HOUSE + OPEN DECKS FREE

Meet the community in Highland Park. Ask every question you've been sitting on, watch real DJs spin, and put your hands on professional equipment. Potluck style — bring a snack or a non-alcoholic drink.
